

# SHOCKINGLY GREAT

## JPEG Inc. Electrical Contracting is your first call for any and all electrical needs

Family-owned JPEG Inc. Electrical Contracting installs, connects, tests, and maintains residential, industrial, and commercial electrical systems. With service available throughout Broward, 24-hour emergency care, and a dedication to quality service and customer care, JPEG Inc. should be your first call for any and all electrical needs.

*"Professional and courteous. The team has showed-up on time, completed the work flawlessly and left a clean environment when they were done. During the installations as they encountered challenges they approached them with creativity and a positive attitude, ultimately solving all successfully." Igor Zeltzer, 5-Star Google review*

### The JPEG Inc. Difference

"There are many electrical contractors to choose from," said Mark Arruda, owner of JPEG Inc. "Which is exactly why we separate ourselves from the competition in every way we can." In business for more than 15 years, the licensed & insured JPEG Inc. constantly evolves and grows, keeping abreast of the latest technology and techniques to ensure that their clients receive unbeatable sales and service.

"If you've ever had a negative experience with services you've purchased from a contractor, you will relate to how different we try to be from our competition, and why," said Arruda. "We understand how valuable your property is, and we respect it by keeping it clean and hazard-free. And before we begin working, you'll know exactly how much the work will cost."

Everyone at JPEG takes great pride in working for the company, because the value of the brand guarantees you'll be completely satisfied with their work and products. Said Arruda, "Our team of electrical professionals is comprised of many of the most talented and dedicated electricians in Florida. All of our staff, from our field electrician to project managers to support staff, have one priority – customer satisfaction."

JPEG Inc.'s highly qualified electricians are among the best trained in the business, which means you'll never have to worry about the professional in your home. Said Arruda, "Training is an ongoing endeavor that enables us to serve you better. We offer constant training to our electricians and support staff so they can offer you the latest and greatest in service and products." Furthermore, project managers constantly review company processes and staff performance so that they can increase efficiency and improve service.

### 24/7/365 Care

JPEG understands that emergencies often happen outside business hours, which is why they are available 24 hours per day, every day of the year. No matter what your needs – system upgrade, electrical problems, new construction – just call 954.410.3995 and they can help. "Emergencies aren't convenient, are they?" said Arruda. "We only hire concerned, dedicated support

staff who put you first when you call, and schedule your appointment when it's convenient for you."

*"(I called) this company this morning with 3 different problems. Mark the owner was in contact with me until one of his electricians came by. (They were) nothing short of EXCELLENT!!! Very knowledgeable and able to rectify all of my problems. I will ABSOLUTELY use this company again as they showed nothing but great customer service, professionalism, and courtesy ever step of the way. Thank you." Rick Baldwin, 5-Star Google review*

### Everything You Need

JPEG Inc. provides every kind of residential, commercial, and industrial electrical service you can think of, from minor repairs to major code violations: appliance circuits, breakers, fuses, ceiling fans, code corrections, data/communication lines, dedicated computer circuits, electric water heaters, emergency generators, emergency standby power, exhaust fans, ballast lamps, CAT6 cabling, commercial wiring, control wiring, electrical inspections, emergency electrical service, energy efficient lighting, fiber optic cabling, generators, industrial lighting, custom electrical system design... JPEG can handle all of it, and more.

*"We have hired JPEG for several projects at our company which involved complex installations and troubleshooting during production hours. Mark and his team are very knowledgeable and we will continue to use him. Always on time and equipped for any project we have." Edward Dibeler, 5-Star Google review*

### Satisfaction Guaranteed

All of JPEG's work is backed by their satisfaction guarantee, up-front pricing, and follow-through on their promises to you. "If for any reason you're not satisfied with our work, we'll do what it takes to deliver the service you expect, and then exceed those expectations," said Arruda. "We're not just your electricians, we're your neighbors. We believe in building relationships with our clients, because we know that's how we can best serve you – it's why we're involved in our community in charity events and sponsor kids' recreational sports."

Arruda wants his clients to make informed decisions. "Don't get sold electrical work because you are scared or don't know any better," he said. "Get informed. Do your research. Be an educated consumer. Because when you do, you'll discover why so many of your neighbors choose JPEG for their electrical service needs – and why you should, too."
